

KNOLLWOOD MEMORIAL PARK  
& ARBORETUM

**PLANTING NEW GRASS**

At Knollwood Memorial Park we deeply value the beauty of our lawns, as we know how important it is for there to be grass on the graves of a loved one.

While we take great pride in our turf management and lawn care programs, we do face challenges due to the New England climate. During the winter months (November through March) and the peak heat of summer (June through August), the weather conditions make it particularly difficult for new grass to establish successfully.

Please rest assured that we are committed to the maintenance of our beautiful lawns and will attend to each work order with the utmost care. However, during these times of the year new grass growth may be slow and sparse.

Our top priority is always supporting families, and we strive to maintain clear and open communication to prevent any misunderstandings. If you require a maintenance request for your loved one, please don't hesitate to visit our office or submit a request through our Lot & Grave Care Request form.

If you have any additional questions you would like for our team to address, please contact our office through email at [info@knollwoodmemorial.com](mailto:info@knollwoodmemorial.com) or call our main line at (781) 828- 7218.

Thank you again for your support, patience and understanding,

*Knollwood Memorial Park*
